

Structure of Exam

There are three exams in Mathematics, each worth $\frac{1}{3}$ of the total marks available for the qualification.

Paper 1 (Non-calculator)

Paper 2 (Calculator)

Paper 3 (Calculator)

Each paper is 1 hour 30 minutes.

Exam Paper Links

Subjects - Maths - GCSE Year 11 Past Papers.

In the Maths folder there are also Topic lists for both Foundation and Higher.

This links to Video clips on youtube with worked solutions for exam papers.

Top Tips

- 1) Try all questions (the majority of the marks is for the working out).
- 2) Write down all the formulae you have used in the question.
- 3) Show all steps of your working out.
- 4) Check carefully through each step.
- 5) Label all calculations, particularly on starred questions.
- 6) Write down all facts in full sentences.
- 7) Check the units carefully.

A list of revision topics can be found for foundation and higher tier can be found in the "What to revise" section. These are accompanied by links to video tutorial and quizzes via hegartymaths.com
