

Year 11

- Use positive integer powers and roots, recognise powers of 2, 3, 4 and 5
- Understand and use order of operations in a calculation
- Add and subtract fractions with same denominators
- Solve ratio and proportion problems in a variety of different contexts
- Find a percentage and a fraction of a quantity
- Solve 2 step linear equations
- Use the form $y = mx + c$ to draw straight line graphs
- Calculate area of compound shapes made of rectangles and triangles
- Calculate volume and surface area of cuboids
- Transform a shape by reflection, rotation, translation and enlargement

Year 10

- Multiply 2 and 3 digit numbers
- Find highest common factors and lowest common multiples
- Identify and work with fractions in ratio problems
- Find a simple percentage of an amount with and without a multiplier
- Order fractions by using equivalent fractions or decimal/percentage conversion
- Simplify expressions with more than one unknown
- Solve 1 step linear equations
- Identify and apply circle properties: centre, radius, chord, diameter, circumference
- Understand and use alternate and corresponding angles on parallel lines
- Find probabilities of two events using two way tables and Venn Diagrams

Year 9

- Apply the four operations to both positive and negative integers
- Solve simple direct proportion problems
- Divide a quantity into a given ratio and apply ratio to real contexts
- Substitute values into simple formulae and expressions
- Simplify algebraic expressions with one unknown
- Solve worded equations
- Recognise sequences of triangular, square and cube numbers, and simple arithmetic progressions
- Calculate area of triangles and rectangles
- Apply the properties of angles in a triangle, on a straight line and vertically opposite angles
- Find the probability of a single event

Heathfield Community College

Pathway 2

Year 8

- Use positive integer powers and roots
- Order decimals
- Express one quantity as a fraction of another and find a fraction of an amount
- Find simple percentages of an amount
- Understand equivalence of simple fractions, decimals and percentage
- Use ratio notation and reduce a ratio to its simplest form
- Plot coordinates in all 4 quadrants
- Generate terms of a sequence from a term-to-term or position-to-term rule
- Calculate area and perimeter of rectangles
- Use standard units of mass, length, time, money and other measures

Year 7

- Understand and use place value with large numbers
- Multiply and divide 1 and 2 digit numbers
- Order positive and negative integers
- Estimate answers and check calculations using approximation
- Understand and find factors and multiples
- Identify a pictorial representation of a fraction
- Define percentages
- Plot positive coordinates
- Translate between worded descriptions and algebraic expressions
- Recognise key vocabulary relating to 2d and 3d shapes
