

LATIN CURRICULUM PLAN

BIG IDEAS: In this subject, students become strong linguists and logicians who can parse complex puzzles and draw meaning from them by developing a key eye for detail; successful learners who are motivated to learn complex grammar and word endings independently and by memory, establishing a sturdy foundation; confident individuals who express their opinions on historical extracts, artefacts, think critically and translate aloud in groups or in front of the class. Latin helps make a connection between classical studies and modern history, languages and arts.
